CARRY ON ABROAD

Does your old duffel bag not cut it in business class any more? Move up the ranks of chic with one of these sophisticated cabin bags

SAMSONITE BLACK LABEL RESORT ALONG WEEKENDER

\$1,042

The zipped section visible at the bottom of the bag is not a bizarre elongation of the shape but an oh-so-practical detachable shirt bag. Designed for men or women, the design is sleekly unisex, right down to the art-nouveau paisley lining. It is available in black as well as the featured ecru and Samsonite assures customers that "this bag will make an impression wherever your journeys take you." For the price, it really should.

TITAN 360 FOUR DIAMOND EDITION 19-INCH INTERNATIONAL CARRY ON

\$550

This conventional wheeled case is a must for travellers looking to make an efficient, hassle-free transit through the airport. Four multi-way wheels make it easy to manoeuvre while the dedicated organisational pockets within make sure that you can still find your things after the journey. The bag meets most international size restrictions and, while hard-shelled, is also light enough to lift into the overhead lockers. It is available in black, red, ocean blue and champagne and its makers claim that the patterned exterior is virtually scratch proof.

PORSCHE DESIGN P'2140 TROLLEYS ROADSTER BRIEFCASE M

\$1,200

It's not going to be big enough for every business trip but the maker's boast of 'extraordinary handling' is bound to hook some fans. Though it is doubtful that you can make a wheeled bag pull the same stunts as a Porsche 911, there are bound to be a few willing to give it a try in the airport corridors. The bag is reinforced with aluminium at every possible opportunity and can comfortably accommodate a laptop and a few overnight essentials.
