If you read my travel pieces, you know I like my luggage. Big, small, hard, soft, I love it all- and I've got a dozen or so pieces to prove it. Well, I just got word that my favorite luggage brand- **Titan**- is introducing four new lines of German engineered perfection, which means it's time to pull out my credit cards!

The new lines- *360 FOUR Flash*, *X2 4W Flash*, *Manhattan 4W* and *X2 4W Special Edition Carbon* from TITAN LUGGAGE mean even more choices in an already fabulous collection. Like the rest of their lines, Titan's new range is made with the same durable polycarbonate material as the original TITAN suitcases and sport the best color variety of the season.

The 360 FOUR Flash is perfect if you're looking for style. Outfitted with great features like a lightweight frame, roomy interior, and four wheel maneuverability, the 360 FOUR Flash comes in vivid colors including pink, champagne and red. The line retails between \$400 and \$500 per piece.

If you're looking for a little more modern zest, try the new X2 4W Flash. Equipped with four wheels, this line allows for easy and comfortable transport, no matter where you're headed. With brilliant colors like yellow, pink and green, it's never been easier to spot your bags on the luggage carousel. Celebrities like Gwen Stefani and Gavin Rossdale have already stocked up on this flashy collection, which retails between \$420 and \$725 per piece.

If you're looking for an elegant, classic and timeless line, check out the sleek Manhattan 4W. It's everything a traveler needs: lightweight, extremely durable, stylish and business appropriate. This new addition to the TITAN family has the same classic elegance of the previous Manhattan 2W, but is equipped with four wheels for added control and precision. You can get this line for \$735 to \$935 a piece.

Finally, for a limited time only, TITAN will release the ultra luxurious and critically anticipated X2 4W Special Edition Carbon. Available exclusively in a sleek carbon color, this line is perhaps the most exquisite member of the new fall collection. Made from the same material as those in the Manhattan line, X2 4W Special Edition Carbon cases also feature four wheels for maximum ease. Whether you're traveling for business or pleasure, there's no better way to look cool, calm, and collected.

Depending on each specific line, beauty, laptop and business cases, as well as flight bags are available to match your luggage. In keeping with the great TITAN tradition, all of Titan's new styles come with the same great "No Matter What" lifetime warranty; for all those unforeseen curve balls life can throw your way!
