COOLEST CARRY-ONS

Anthony Grant

Thu Nov 29 13:30:00 EST 2007

So which do you choose, a hard or soft option? Devotees of the latter may be surprised at just how light and nimble hard luggage is these days. Not to mention ultra-cool. Consider the **Titan X2** two-wheel Matte International Carry-On. It weighs in at 7.3 pounds, comes in champagne, silver or black, and has a 100% polycarbonate shell that is more durable than ballistic nylon: your basic Bond bag.
